

# ANGRY

## RABBIT

## RABBIT

## RABBIT

This is a medium sized fly designed to for the Danish salmon rivers. The rivers are often deep, slow moving and colorless. This Angry Rabbit has a Crystal Flash under wing the fits the rabbit strip color, this makes it very visible. Then there is not held back on the hackles, all three of them. Rubber legs to tease and the a big Pro Soft Cone to create a big wave around the fly. It is lightly weighed but not so much that the fly will "hang dead" in slow water.  
Danish monster salmon, watch out!

# STEP BY STEP TYING

# ANGRY RABBIT

## MATERIALS NEEDED:

Tube: ProTube System - Flexi Tube - Green

Weight: ProTube System - Flexi weight

Wing: Rabbit strip

Hackles: 1. Grizzly Spey Hackle - Yellow/red
